attach graphs of production if available, continue of separate sheet if necessary.

Feed and Feeding Protocol:

Current Vaccination and Routine Drug Therapy:

Clean Down Protocol and chemicals used:

Farm Layout

Draw a sketch of the farm marking shed numbers and identifiers. If available attach Googlemap image of the farm. Note on the sketch : water courses, overhead cables and transformers, microwave / mobile phone / tv masts.
Attach photographs or send jpg in email.

Sheds

Identify and note construction and rough age and condition of each building on sketch. Type of ventilation, feeding equipment and inner layout. Note any chicken wire or other barriers/dividers and note position in shed.
Attach photographs or send jpg in email.
